WMA Show Management has the right to assign a booth location other than what has been requested by the Exhibitor on the space contract.
4. When considering booth selection options, it is recommended an exhibitor with 1-15 years of seniority designate more than one preference for exhibit booth space. Remember there are exhibitors with 30 and 40 plus consecutive years exhibiting.

F. BOOTH SET UP GUIDELINES

1. All booths must comply to the following booth set up guidelines prior to the exhibit hall grand opening. Show Management decisions are final. Product display height restrictions (including signage):

a. LINEAR BOOTHS: 8' MAX. DISPLAY HEIGHT

Regardless of the number of Linear Booths utilized, (e.g. 10'x20', 10'x30', 10'x40', etc.) display materials should be arranged in such a manner so as not to obstruct sight lines of neighboring exhibitors. The maximum height of eight feet (8') is allowed only in the rear half of the booth space, with a four-foot (4') height restriction imposed on all materials in the remaining space forward to the aisle (See Figure 1). When three or more Linear Booths are used in combination as a single exhibit space, the four foot (4') height limitation is applied only to that portion of exhibit space which is within ten feet (10') of an adjoining booth.

Figure 1 - Product display height restriction (including signage)

b. PERIMETER BOOTHS: 12' MAX. DISPLAY HEIGHT

All guidelines for Linear Booths apply to Perimeter Booths; with the exception, the maximum back wall height is twelve feet (12').

2. **ISLAND BOOTHS:** Hanging signs and graphics are only permitted in Island Booths, with a maximum height of twenty feet (20'), whether suspended from above or supported from below.
3. Pipe and drape is used to define exhibits and is not intended as a display fixture. Therefore, product and signs should not be attached or affixed.
4. Canopies, including ceilings, umbrellas and canopy frames, can be either decorative or functional (such as to shade computer monitors from ambient light or for hanging products). The base of the Canopy should not be lower than seven feet (7') from the floor within five feet (5') of any aisle. Canopy supports should be no wider than three inches (3"). This applies to any booth configuration that has a sightline restriction; such as, a Linear Booth.
5. A Tower is a freestanding exhibit component separate from the main exhibit fixture. The height restriction is the same as that which applies to the appropriate exhibit configuration being used. Towers more than eight feet (8') should have drawings available for inspection.

6. A multi-story exhibit is a booth where the display fixtures exceed twelve feet (12'), including Double-decker and Triple-decker Booths. In many cities, a multi-story exhibit requires prior approval by the exhibit facility and/or relevant local government agency because it is deemed to be a "structure" for building purposes. The city building department generally needs to issue a building permit based on an application and drawings prepared and submitted by a licensed architect or engineer. Exhibitors should obtain local building regulations early on to ensure that all time constraints are met.
7. All exhibit displays should be designed and erected in a manner that will withstand normal contact or vibration caused by neighboring exhibitors, hall laborers or installation/dismantling equipment such as forklifts. Displays should also be able to withstand moderate wind effects that may occur in the exhibit hall when freight doors are open. Refer to local building codes that regulate temporary structures. Exhibitors should ensure that any display fixtures such as tables, racks or shelves are designed and installed properly to support the product or marketing materials to be displayed upon them.
8. The Facility prohibits materials, signs, products or other items to be affixed or attached to convention center walls/wall panels, columns, doors, or floors; this includes, but is not limited to adhesive backed decals, tape, stickers, pushpins and staples. Products such as doors, windows, or otherwise are not to be leaned against convention center walls/ wall panels including but not limited to exhibit booths, tables and chairs. Should damage occur due to non-compliance, damage fees will be at the expense of the Exhibitor.
9. All materials used in display construction or decorating should be made of fire retardant materials and be certified as flame retardant. Samples should also be available for testing. Materials that cannot be treated to meet the requirements should not be used. A flame proofing certificate should be available for inspection. Exhibitors should dispose of any waste products they generate during the exhibition in accordance with guidelines established by the Environmental Protection Agency and the Facility.
10. Electrical service is not included in exhibit space. The Facility is the exclusive provider for all electrical. Please refer to the Facility order form.
11. Exhibitors should adhere to the following suggested minimum guidelines when determining booth lighting and consult with a professional:
 - No lighting, fixtures, lighting trusses or overhead lighting are allowed outside the boundaries of the exhibit space.
 - Exhibitors intending to use hanging light systems should submit drawings to the Facility management for approval.
 - Lighting should be directed to the inner confines of the booth space. Lighting should not project onto other exhibit booths or show aisles.
 - Lighting which is potentially harmful, such as lasers or ultraviolet lighting, should comply with facility rules and be approved in writing by the Facility.
 - Lighting that spins, rotates, pulsates and other specialized lighting effects should be in good taste and not interfere with neighboring exhibitors or otherwise detract from the general atmosphere of the event.
12. Exhibitors may use sound equipment in their booths so long as the noise level does not disrupt the activities of neighboring exhibitors. Exhibitors should remember that using sound equipment is a privilege and not a right. WMA Show Management reserves the right to determine at what point sound constitutes interference with others and must be discontinued by adhering to the following: Speakers and other sound devices should be positioned to direct sound into the booth rather than into the aisle and may not obstruct aisle view or that of neighboring exhibitors. There will be one warning issued about objectionable sound levels. Any further objectionable sound levels will result in the exhibitor being required to discontinue the activities responsible for the sound levels.
13. Fire regulations in most exhibit facilities prohibit storing product, literature, empty packing containers or packing materials behind back drapes or under draped tables. In most cases, however, exhibitors may store a limited supply of literature or product appropriately within the booth area, so long as these items do not impede access to utility services, create a safety problem or look unsightly.
14. Filming, videography, and photography in the exhibit hall are strictly prohibited unless prior written consent has been obtained from WMA.
15. Exhibitor is prohibited from selling, serving or dispensing of any food or beverage products. Food and beverage is not permitted onto the premises of the Facility from any other provider. Any food or beverage provided in the exhibit booth must be supplied and prepared by Facility.
16. Balloons, glitter, and confetti are prohibited in the Facility.
17. Smoking is not permitted inside the Facility or within 25 feet of any entrance. Smoking is restricted to designated (outside of the facility) smoking areas only.
18. Exhibits must remain open during official exhibit hall hours. Actual occupancy of the Exhibitor's exhibit space by the Exhibitor is required. All exhibits/displays must remain staffed and fully intact until the hall is announced officially closed on Tuesday, October 10, 2017 at 4:00 p.m., Premature dismantling will result in the loss of seniority points.

19. Exhibitor understands that WMA provides limited security in the exhibit hall. Exhibitors are encouraged not to bring, or leave, valuables into the exhibit hall. WMA assumes no responsibility for lost or damaged items including: equipment, product, valuables or any other items. Lost or damaged items may be reported to WMA staff or to hall security.
20. Exhibitor or its representative has an outstanding balance of any type payable to Show Management, it will not be permitted to install or set up its exhibit. No exhibits may leave the Show at any time after installation until the final closing of the Show unless special written permission is obtained in advance from Show Management.
21. Exhibitor Service Manual: Prior to the Event, Show Management Service Contractor & Decorator will provide access to an online Exhibitor Service Manual to the "Primary Contact" listed on the Exhibit Contract. The Exhibitor Service Manual will include information integral to participation at the Show, including but not limited to: additional exhibitor rules and regulations, official contractor order forms, shipping and drayage, utilities and building services, exhibitor display rules, and move-in, move-out schedules. For services, such as electrical, plumbing, telephone, custom cleaning, and drayage (including all movement of material and equipment), no exception will be made, and the Official Contractor must be used.
