

## **MJB Wood Group Solidifies Its Strategic Position in Mexico with New Tijuana Facility**

**Cedar Hill, Texas – December 7, 2023**

MJB Wood Group, LLC, a leading manufacturer and distributor of industrial wood products, is proud to announce its latest strategic expansion in Mexico with the opening of a new facility in Tijuana. This expansion, made possible through a strategic long-term agreement with Bucher Industries, represents the company's commitment to enhancing its supply chain and manufacturing capabilities across North America.

With the opening of this new facility, MJB Wood Group strengthens its position in Mexico, now boasting seven locations within the country. This move is integral to MJB's strategy to meet the growing demands of the North American market and to offer more effective nearshoring solutions to US companies.

Scott Griggs, President & CEO of MJB Wood Group, emphasized the significance of this expansion: "As MJB executes on our targeted growth strategy across Mexico, further investment in Tijuana provides the critical platform to meet the needs of the entire market. Through established first-class warehouse services and soon to be light manufacturing, MJB is ready to expand nearshoring opportunities to US companies within Tijuana."

The new Tijuana facility is strategically located to optimize logistical operations, offering MJB an enhanced capacity to serve both the burgeoning Mexican manufacturing economy and US businesses looking to benefit from nearshoring advantages.

### **About MJB Wood Group**
