### **House of Forgings (HF) Stair & Railing Expands Operations with New Jersey Facility**

**(Houston, Texas – August 5, 2024)** Texas-based House of Forgings, LLC, (“HF”) Stair and Railing proudly announces the opening of its latest distribution facility in Edison, New Jersey. “The New Jersey location represents a strategic move to significantly improve our support for East Coast customers. We are fully dedicated to ensuring that the market's demands are met with immediate access to our products,” states Boyd Winkler, President of Sales and Marketing. “Architectural millwork continues to evolve with design and application and so too does HF with stair products. We continue to set trends.” Founded in Houston, Texas, in 2000, HF provides extensive collections of stair components in wood and metal and is now operating distribution centers in Houston, Texas; Conover, North Carolina; Aurora, Colorado; and Edison, New Jersey.
